## EXECUTIVE GLOBAL COUNCIL

I was very privileged to attend the Executive Global Council in Buenos Aires, Argentina. There were 39 attendees from the seven regions. This council unites worldwide missionary endeavor, prayer and evangelism. It promotes the regional missionary program, training, and upholds the International Articles of Faith and Standards of Righteousness which will fulfill the great commission.

Our hearts were stirred by the keynote message given by **General Superintendent Kenneth Haney**. He said that the way of the cross might not be easy but it is the only way to revival and growth. He related how that his grandparents, missionaries in Japan, receiving the oneness revelation. They loved and held to the truth even when their mission society dropped them while they were still in Japan. Brother Haney warned that if we do not follow the way of the cross we will die like any other religious organization.

One highlight for me is that I was able to share a room with Gary Reed, Missionary to the Middle East. He is my little brother. It seems we are never on deputation at the same time and seldom have the opportunity to visit. We were able to do a lot of catching up and reminiscing.

## REVIVAL FIRES BURN IN FIJI

During the Western District Crusade there were a total of 353 baptisms, 170 souls were filled with the Holy Ghost and there were many miracles. Our special speaker was **Missionary Evangelist Eli Hernandez** from Palm Desert, CA. He blessed us with his powerful evangelistic messages. There was a mighty out pouring of the Holy Ghost and many miracles. **The church of Fiji is so grateful to the North American Church for their support of this crusade.**
